RPH Welcomes Glen Patteson as New Customs Solutions Associate

San Antonio, Texas (May 16, 2024) - [RPH](#), an industry leader in building envelope solutions specializing in roof and wall penetration protection, is pleased to announce the hiring of Glen Patteson as Customs Solutions Associate. This strategic addition to the team will support RPH's rapid growth in its Custom [VAULT®](#) and [CYLCONE®](#) product lines.

As a new member of RPH's technical and engineering team, Glen is set to make significant contributions by partnering with clients, including architects and engineers, to develop [Custom Solutions](#) for the VAULT® and CYCLONE® lines. Utilizing his wide range of technical knowledge and practical experience in the manufacturing and construction sectors, he will generate CAD drawings and takeoffs, and help develop strategies to address penetration challenges. His work is expected to streamline internal development and foster clear, effective communication with external stakeholders.

"Glen joins our team with a strong foundation, holding a degree in drafting and design, enhanced by extensive experience in structural steel fabrication and valuable field insights," Jay Barbieri, Vice President of RPH, commented. "Glen has a deep understanding of client needs from project start to finish that truly sets him apart, enabling him to deliver innovative, client-centered solutions."

Before joining RPH, Glen built substantial experience across the lifecycle of projects within the structural steel industry. He also sharpened his abilities in detailing essential heavy machinery including fans, ducts, and louvers, thanks to thorough on-site inspections and supervising fabrication efforts. His expertise is expected to be a valuable addition to the RPH team.

Glen shared, "RPH was the first company that truly caught my interest, appealing to me with its products, company culture, and unique approach to solving market issues. I'm naturally curious and always interested in helping to solve challenges. I am looking forward to using my varied experiences to help develop solutions for RPH and our clients."

With Glen joining the team, RPH reinforces its dedication to delivering high-value technical solutions for the building envelope. His arrival marks a significant step in our journey toward innovation and customer satisfaction in the VAULT® and CYCLONE® product lines. RPH is eager to see the unique contributions Glen will make, driving their continued success and leadership in the industry.

About Roof Penetration Housings, LLC (RPH)

RPH is a trusted leader in building envelope solutions, specializing in roof and wall penetration protection and safe room/storm shelter products. Our focus goes beyond standard offerings as our engineering services allow us to customize products to precise specifications, setting a new industry benchmark for innovation and personalized service. From our humble beginnings as a code-driven manufacturer of roof and wall penetration protection, we've evolved into the go-to experts for solving a wide range of building envelope and penetration issues. By addressing real problems and collaborating with engineers and architects, we develop high-value technical solutions that solve complex challenges. Experience the new era of creative problem-solving with RPH.
